Human Helping Hands

-The Right way for Little Footprints

[ANNUAL REPORT 2013-14]

Children's Development is as important as the development of material resources and the best way to develop national human resources is to take care of children. India has the largest child population in the world.

All out efforts are being made by India for the development and welfare of children. Significant progress has been made in many fields in assuring children their basic rights. However, much remains to be done. The country renews its commitment and determination to give the highest priority to the basic needs and rights of all children. Children are most vulnerable to exploitation and abuse.

Human Helping Hands is an organization run by a number of dedicated volunteers who have keen interest in helping Orphan Children who at a very young age face many hurdles in the journey of life.

We being the upcoming youth of INDIA want to take part in social service to save and preserve present children, the future citizens.

'Giving education is our fight, it's your birth right'

This noble initiative was taken by a group of volunteers interested in helping unfortunate people to the maximum extent & decided to bring about a change in the lives of these un-blossomed seeds:

- ❖ Educating children.
- ❖ Providing them with basic needs like clothes and housing etc. through different orphanages.
- ❖ Helping poor children with books and stationary.
- ❖ Providing them better tutors and creating peaceful environment.
- ❖ By abolishing Child Labor, Child Marriages.
- ❖ Spreading Awareness and Happiness.
- ❖ Providing medical facilities in rural areas.

We are committed to provide the basic things to those unfortunate people. We have a continuous goal, to provide support, share experiences, make those unfortunate people realize that they are not alone in this battle of life. We choose to focus on the individual child and the challenges they may face. We emphasize their abilities, not their disabilities.

'Creating awareness is our intention and education is our weapon'

"Our goal is to continue to help the unfortunate people of this country, but we can only do that with your continued support!"

H-Cube TEAM MESSAGE!!

We were a group of friends who just completed their schooling and were left with a lot of free time on their hands. So we decided on a hobby to kill time. And Human Helping Hands was the result of it. Yes, a humble beginning. Just another experience to make us all the wiser. And with that in our mind we started visiting orphanages and giving things to kids there. Maybe spreading happiness is addictive or maybe it is not. But seeing the smiles on their faces inspired us to continue and do more activities of similar kind.

Since then we've come a long way. We grew up and with us, so did our ideas and passions. And many of them are centered on our NGO Human Helping Activities. Thanks to the continued support from our supporters and well-wishers, we were able to pull off a string of activities. But whatever the scenario maybe, it is the smile on a child's face that stays fresh and long in our minds, giving us the strength to grow and put in more effort

Educating young minds of Pallavi Model School:

After visiting few orphanages we thought it would be great if we share our views with the younger generation. Therefore we gave a presentation about the present problems children face in the outside world in **Pallavi Model School, Bowenpally**. We also presented our views and future projects. **Social Service Club of Pallavi Model School** agreed to support us.
