India has the largest child population in the world. Children's Development is as important as the development of material resources and the best way to develop national human resources is to take care of children.

All out efforts are being made by India for the development and welfare of children. Significant progress has been made in many fields by assuring their basic rights. However, much remains to be done. Our country renews its commitment and determination to give the highest priority to the basic needs and rights of children as they are most vulnerable to exploitation and abuse.

**Human Helping Hands** is an organization run by a number of dedicated volunteers who have a keen interest in helping Orphan Children who at a very young age face many hurdles in the journey of life. We being the upcoming youth of INDIA want to take part in social service to save and preserve the childhood of the future citizens.

### **'Giving education is our fight; it's their birth right'**

This noble initiative was taken by a group of volunteers interested in helping unfortunate people to the maximum extent & decided to bring about a change in the lives of these un-blossomed seeds by:

- Educating the children.
- Providing them with basic needs like clothes and housing through the medium of various orphanages.
- Helping poor children with books and stationary.
- Providing better tutors and creating peaceful environment.
- By abolishing Child Labour and Child Marriages.
- Spreading Awareness and Happiness.
- Providing Medical Facilities in rural areas.

We are committed in our efforts to provide the basic needs to those unfortunate. We have a continuous goal to provide support, share experiences and make those unfortunate people realize that they are not alone in this battle of life. We choose to focus on the individual child and the challenges they may face. We emphasize their abilities, not their disabilities.

### **'Creating awareness is our intention and education is our weapon'**

**"Our goal is to continue to help the unfortunate people of this country, but we can only do that with your continued support!"**

# H-Cube TEAM MESSAGE!!

We were a group of friends who just completed schooling and were left with a lot of free time in our hands. So we decided on a hobby to kill time and **Human Helping Hands** was the result of it. Yes, a humble beginning, just another experience to make us all the wiser. With that in our mind we started visiting orphanages and giving required stuff to kids there. Maybe spreading happiness is addictive or maybe it is not. But the smiles on their faces inspired us to continue and do more activities of similar kind.

Since then we've come a long way. We grew up and with us, so did our ideas and passions. And many of them are centred on our NGO Human Helping Activities. Thanks to the continued support from our supporters and well-wishers, we were able to pull off a string of activities. But whatever the scenario maybe, it is the smile on a child's face that stays fresh and long in our minds, giving us the strength to grow and put in more effort.

# COLOR CARNIVAL 2K15-16

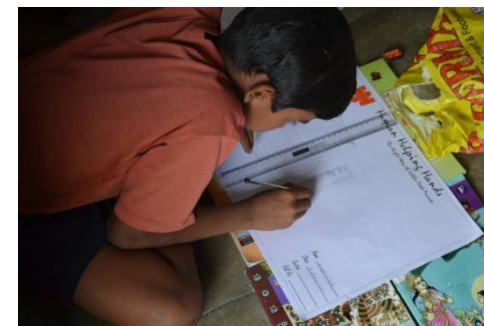

Drawing increases concentration, aids in fine motor skills, encourages color awareness and stimulates creative thinking. Color Carnival is a Drawing Competition conducted by **Human Helping Hands**, to make the children realize that drawing is one of the key educational tools in the early learning stage.

It was a successful event with more than 200 participants across the city from different schools and orphanages. The students were made to realize the importance of participation to winning by giving them participation certificates.

A second Color Carnival in the year 2016 was conducted in a Government school near Dairy Farm road with 100 participants.

**“Lead a colorful life. Come lend a hand, lend a helping hand!”**

# INDEPENDENCE DAY 2K15

We celebrated Independence Day 2K15 by promoting patriotism among the street people by distributing our National Flags. We educated them about the real importance of the Independence Day and the effort put in by our great leaders to achieve it. We also provided snacks and juices to needy.

Later we went around the city interviewing various people on the issues troubling the Independent India even after 68 years of Independence.

**“Independence means enjoying freedom and empowering others too to let them do so.”**

# REAL CELEBRATIONS OF FESTIVAL

We celebrated Diwali & Dussera 2K15 with the children of Dwarakamayee Seva Samithi at KPHB by providing them books, stationary, eatables and juices. We celebrated it in an eco friendly and traditional way by lighting diyas, exchanging wishes and gifted those kids few useful items.

We even educated those kids about the environmental issues and climatic changes caused by bursting crackers and other environmental hazardous things.

We also went around the streets of Hyderabad gifting new clothes to the needy.

We celebrated Sankranti 2K16 by gifting kites to the children over the streets of Hyderabad.

**“Festivals promote diversity, they bring neighbours into dialogue, they increase creativity, they offer opportunities for civic pride, and they improve our general psychological well-being. In short, they make cities better places to live.”**

# SPREADING AWARENESS & HAPPINESS

Nowadays the best way to reach more and more people is through the internet, so we at **Human Helping Hands** thought about educating and creating awareness among people through some online tools like YouTube and blogs. We made few clips which encourage people to come out and help others in need and then we made videos about child education and child labour to create awareness among public. The approach has reached more than 1000 people through our Facebook page. We look forward to keep up these works and make many more videos.

These are few snap shots of the videos we made for spreading awareness and happiness among the people.

# Government School Development

**Human Helping Hands** undertook several activities in Yadamma Nagar Government School near Dairy Farm Road at Alwal, Hyderabad.

We conducted several drawing competitions under the initiative of Color Carnival and awarded the winners and participants. On the request of school Head Master and students, we also provided them the equipment required for indoor and outdoor sport like caroms, chess and football etc.

We also provided the school students with the necessary notebooks and stationary sufficient for the academic year.

We thank Pallavi Model School of Bowenpally for supporting and helping us in collecting and donating the books in the school.

We also started teaching the students about basic etiquettes, public speaking and life development skills

# Republic Day Celebration 2K16

**Human Helping Hands** undertook several activities in Yadamma Nagar Government School near Dairy Farm Road at Alwal, Hyderabad. Our National Flag was unfurled by the school Head Master. Then the students went around the place with drill to mark the day. We conducted various sports contests like athletics, cultural activities like drama and singing for the students on 26<sup>th</sup> January and the participants and winners were given prizes and certificates. Later we interacted with the students and discussed about our freedom fighters and the importance of the Republic Day and our Indian Constitution.

# AYAS AND H-CUBE!

**Human Helping Hands** and AYAS, a technical fest of the Mechatronics department of JNTU University of Hyderabad, together conducted many social service activities. As a part of it we conducted Life Skills Development classes in various schools in Hyderabad.

We visited the Government School near Alwal and Sri Siddhartha High School at Indra Nagar and conducted few interactive sessions to teach children in an effective manner.

**“You cannot teach a man anything, you can only help him find it within himself.” - Galileo Galilei**

# OTHER ACTIVITIES

At beginning of the Year 2K15 we donated few teaching equipments to Green Multi Rehabilitation Centre which is a place where extra special children are treated with special attention at a nominal price.

**“WE RISE BY LIFTING OTHERS”**

**-ROBERT INGERSOLL.**
